# RFID Name and Major Display - RFID Card and Reader

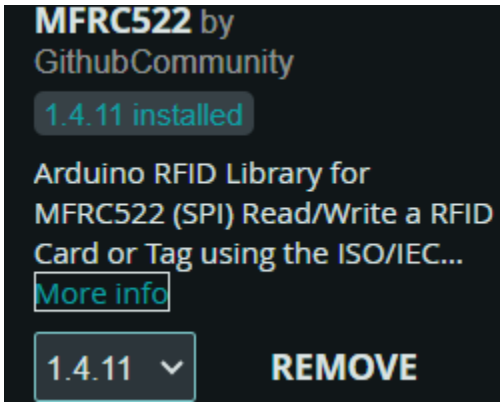
By Jackson Hillyard

Professor: Dr. Elahe Javadi

## 1- What Is Needed

| Tool | Notes |
|---|---|
| Arduino Editor | The software needed to make the connected Arduino devices work. |
| Arduino Kit/Board | The physical hardware that connects all Arduino pieces together. |
| Arduino RC522 RFID Module | The RFID reader and card/key ring. |

## 2- Libraries



The RFID library is included in the editor all that needs to be done is download it to your computer. It is able to be searched for and installed once it is found.

## 3- Code For This Project:
